**TAX REVISION PLANS TO AFFECT DIVIDENDS**

WASHINGTON, Nov. 10 (Associated Press).—The pressing of several important tax revision proposals in the Sixty-eighth Congress was forecast to-day by leaders of the "progressive" Republicans and the Democrats on the basis of the sharp changes in the House and Senate in Tuesday's elections.

The Republican "progressives" propose an impact on undistributed surpluses of corporations, affecting also stock dividends. Such a tax also is favored by the Democrats, according to Representative Oldfield of Arkansas, the minority "whip" and a member of the Ways and Means Committee.

Mr. Oldfield believed the Democrats would favor reenactment of the excess profits tax, but in a modified form; increased inheritance taxes on a graduated scale and the imposition of a gift tax in an effort to reach those of wealth seeking to avoid the payment of high surtaxes through gifts of money to relatives.
